| <b>Soil:</b>                     | paragneiss   medium   sub soil<br>diorite gneiss   medium   sub soil<br>loess   medium   sub soil |

## Vineyard Site:

The Harzenleiten vineyard is the name for the mountain slope of the Michaelerberg, the south-east slopes of which are used for viticulture. Significant loess deposits have accumulated in several areas, offering a good nutrient supply and lending the wines fullness and power. Weathered paragneiss provides complexity and structure, and on the more barren sites, Riesling demonstrates its quality with very delicate wines.

## CELLAR

---

|                                 |                                   |
|---------------------------------|-----------------------------------|
