## WINE DESCRIPTION

In the red edition of MO the Austrian classic Zweigelt is in the foreground: it delivers cherry fruit, lively acidity and should be enjoyed slightly cooled. A great friend and companion! Sometimes I add a dash of white wine to it, why not! Pure, honest wine drinking!

## WINERY

I'm Martin Obenaus from Glaubendorf. "Unchained" is my credo in all aspects. Farmed biodynamically, my vineyards shall once again turn into an ecosystem in which interventions become less and less necessary. I protect, support, let nature take its course, I unchain it. Hunting shapes the environment in a similar way as winegrowing. It might seem unusual to strive for a development in which the hunter becomes dispensable and the nature is unchained. But so does my will to return to winegrowing the way our ancestors used to do it – the low intervention way. I have taken this path which will be a never-ending one. The ecosystem changes every year but so do we.
